Vendor Comparison

Dimension-by-dimension, grounded only in extracted evidence. No fabricated overall score — what can't be compared is said out loud.

⚖️ Run comparison

1 · Are these vendors even comparable yet?

BrandCraft Worldwide

⛔ NOT YET COMPARABLE

- Tax treatment contradictory: 'All taxes included' vs 'GST extra as applicable'
- Duration mismatch: 6-month engagement vs RFQ 3-month campaign window for LI-4/5/6

Pixel & Prose Studio

⛔ NOT YET COMPARABLE

- LI-8 (Program Management) completely missing—no pricing or deliverables
- LI-6 pricing incomplete: only percentage structure, not in grand total

for LI-4/5/6	grand total
• LI-6 quoted in USD; RFQ requires INR	• PI Insurance ₹1.5Cr vs required ₹2Cr; GL Insurance missing
• No project timeline provided to verify August 25 deadline feasibility	• Timeline references 'July 15 launch' vs RFQ September 1-15 launch
• Missing General Liability Insurance (only PI provided)	• 6-month scope for LI-4/5 vs RFQ 3-month requirement

2 · Buyer attention points (by decision impact)

1. Neither vendor comparable: material pricing gaps (Pixel LI-6/8), scope conflicts (both 6mo vs 3mo), insurance deficiencies — *affects: BrandCraft Worldwide, Pixel & Prose Studio*

2. ASCI pre-clearance capability unverified: BrandCraft claims unsupported, Pixel admits no experience—critical for kids' advertising — *affects: BrandCraft Worldwide, Pixel & Prose Studio*

3. Timeline feasibility unverified: neither provides milestone schedule to confirm August 25 campaign-ready deadline achievable — *affects: BrandCraft*

achievable — *affects: BrandCraft Worldwide, Pixel & Prose Studio*

4. Insurance gaps: BrandCraft missing GL (₹1Cr), Pixel PI below threshold (₹1.5Cr vs ₹2Cr) and GL missing — *affects: BrandCraft Worldwide, Pixel & Prose Studio*

5. Pixel lacks FMCG/beverage launch experience; TVC production subcontracted; LI-8 program management entirely absent — *affects: Pixel & Prose Studio*

6. BrandCraft tax treatment contradictory (GST included vs extra); 50% advance payment; USD/INR currency mix — *affects: BrandCraft Worldwide*

3 · Dimension-by-dimension comparison

- Scope Coverage
- Pricing Clarity
- Commercial Completeness
- Timeline Clarity
- Compliance Quality
- Experience Relevance

› 📐 Risk Level

4 · Key differences

- Price gap: BrandCraft ₹2.44Cr+$18K vs Pixel ₹1.30Cr (incomplete); Pixel excludes LI-6 fee & LI-8 entirely
- FMCG experience: BrandCraft 3 nutrition case studies vs Pixel admits no traditional FMCG background
- ASCI compliance: BrandCraft claims 'dozens' (unverified) vs Pixel 'never done formal pre-clearance'
- Scope completeness: BrandCraft covers all 8 line items vs Pixel missing LI-8, incomplete LI-6
- Timeline understanding: BrandCraft no dates provided vs Pixel references wrong launch month (July vs Sept)

5 · Clarifications needed before award

BrandCraft Worldwide

- Definitively clarify: is ₹2.44Cr grand total GST-inclusive or exclusive? Resolve 'All taxes

exclusive? Resolve 'All taxes included' vs 'GST extra' contradiction.

- Confirm delivery of LI-4/5/6 within RFQ 3-month window (Sept-Nov 2024) vs proposed 6-month scope; provide revised pricing if duration-dependent.
- Convert LI-6 $18K fee to INR at stated exchange rate; confirm all pricing in INR per RFQ.
- Provide detailed project timeline with milestone dates proving August 25 campaign-ready deadline achievable.
- Provide General Liability Insurance certificate (₹1Cr minimum) and unbundle LI-1/LI-2 pricing for itemized evaluation.
- Substantiate ASCI pre-clearance claims: provide 2 specific campaign examples with dates, brands, outcomes.
- Confirm IP assignment (C6), child labor compliance (C7), NDA acceptance (C8); provide GSTIN/PAN (C10).

Pixel & Prose Studio

- Provide complete LI-8 (Program Management) approach,

deliverables, and pricing—currently entirely missing.

- Clarify LI-6 total fee: provide estimated cost based on assumed media budget; confirm inclusion in revised grand total.
- Confirm 3-month delivery for LI-4/5 per RFQ (Sept-Nov 2024) vs proposed 6-month scope; adjust pricing if needed.
- Correct launch timeline: RFQ specifies Sept 1-15, 2024 (not July 15); provide milestone schedule proving August 25 deadline met.
- Increase PI Insurance to ₹2Cr and provide GL Insurance (₹1Cr); submit updated certificates.
- Detail compliance specialists for ASCI pre-clearance: names, credentials, experience, fee inclusion in ₹8L LI-7 pricing.
- Provide CVs for key team, production house credentials (RedBus/Footloose), cost breakdown for ₹65L TVC (internal vs external).
- Confirm IP assignment (C6), child labor compliance (C7),

NDA acceptance (C8); provide GSTIN/PAN (C10).

6 · Suggested next steps

- Issue consolidated clarification requests to both vendors with 5-business-day response deadline
- Request revised proposals addressing: scope duration alignment (3mo), complete pricing (all line items), insurance certificates, detailed timelines
- Conduct reference checks only after clarifications received and comparability established
- If Pixel cannot demonstrate FMCG capability or provide LI-8, consider disqualification; if BrandCraft cannot resolve tax/scope conflicts, same
- Schedule vendor presentations post-clarification to assess ASCI compliance approach and timeline confidence
- Verify insurance upgrades and ASCI pre-clearance credentials before final evaluation
